

ObamaCare Is a Bad Deal for Wisconsin

Mark Neumann knows ObamaCare is a bad deal for Wisconsin. Mark supports the right of Wisconsinites to make their own choices when it comes to healthcare. **Our healthcare decisions should not be made by Washington or Madison bureaucrats.**

Government control of healthcare is the cause of rising healthcare costs, and won't be a solution to our problems.

Mark also knows that healthcare is not a responsibility of the federal government.

This issue is the responsibility of the states and the people. That's why Mark supports the proposed **Wisconsin State Constitutional Amendment, LRB-3861/1**, to keep things this way.

Mark knows that individuals can make better choices for themselves than the government can. **In a Strong Wisconsin, individuals will not be forced to purchase healthcare** if it is not their choice to do so.

You can support Mark and our rights by signing the petition at <http://www.strongwisconsin.com/healthcare/>

We can work together for a Strong Wisconsin that respects the individual, and together we can **oppose the federal governments' micromanagement of our lives.**
